Projects

Sharanga IQ — Interview Platform | *MongoDB · Express · React · Node.js · Stream SDK · Clerk* *Jan-Feb 2026*
- Architected a full-stack MERN platform supporting live video interviews via Stream SDK, real-time chat, and an in-browser LeetCode - style code editor for mock technical interview practice
- Integrated Clerk for secure authentication and connected user data to MongoDB via Inngest for persistent session management across interview sessions
- Live: sharanga-iq.onrender.com

Personal Portfolio | *HTML · CSS · JavaScript · EmailJs* *March 2026*
- Built a fully responsive single-page portfolio with dark theme, smooth scroll navigation, typing animations and custom cursor interactions
- Integrated Email JS for contact form with auto-reply functionality and embedded resume download without any backend
- Live: portfolio-ebby.onrender.com

Product Landing Page — with Animations | *React.js · Three.js · GSAP · Tailwind CSS* *Nov 2025*
- Built an interactive 3D product showcase using Three.js and React Three Fiber featuring smooth camera transitions, dynamic lighting effects, and responsive model rendering
- Implemented GSAP-powered scroll animations and timeline sequencing for a cinematic user experience; designed pixel-perfect UI in Figma before translating to code
- Live: apple-sepia-seven.vercel.app

Certifications & Training

Palo Alto Networks — AICTE Eduskills | *Cybersecurity Virtual Internship* *Oct – Dec 2025*
- Trained in Palo Alto firewall configuration, security policy management, and access control implementation
- Gained hands-on understanding of security profiles including Anti-virus, URL filtering, and Vulnerability Protection

Google — AICTE Eduskills | *Generative AI Virtual Internship* *Jul – Sep 2024*
- Studied core Generative AI concepts including LLMs, text generation, image classification, and language translation
- Built small prototypes applying Generative AI APIs to practical real-world use cases

Postman | *API Fundamentals Student Expert* *2024*
- Certified in full API lifecycle management including design, testing, and debugging using Postman
- Proficient in writing test scripts, managing collections, and collaborating on API documentation

Achievements

- **HackerRank:** 5-Star rating in Java & 3-Star in Problem Solving — top tier across both tracks
- **LeetCode:** 140+ problems solved with a max contest rating of 1413 — consistently improving across DSA topics
- Built and deployed 3 full-stack/frontend projects demonstrating end-to-end ownership from UI design to production
